DETAILED ACTION

Claim Objections

1. Claims 4-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, claims 4-10 have not been further treated on the merits.

Allowable Subject Matter

2. Claims 1-3 are allowed over prior art of record.

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach “a second gate electrode arranged on the side opposite to said first gate electrode with respect to the source electrode and the drain electrode,” as recited in claim 1.

Claims 2 and 3 are also allowed as being dependent of the allowed independent base claim.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure Choo et al. (US 2002/0084419), Nomura et al. (US 2003/0226974) and Izumi (US 2005/0179964) also disclose similar inventive subject matter. However, the prior art does not teach *a second gate electrode arranged on the side opposite to said*

Art Unit: 2823

first gate electrode with respect to the source electrode and the drain electrode, as recited in claim 1 either taken alone or in combination.

5. This application is in condition for allowance except for the following formal matters:

The formal matter(s) that set forth in Paragraph 1 above should be addressed by applicant(s) prior pass the instant application to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
